To whom it may concern

This letter serves as a letter of recommendation for South GA Solar Power, LLC, owned and operated by Ron Jackson.

When I called Mr. Jackson he responded promptly within several hours. I found his professionalism refreshing due to the fact that customer service in the state of Georgia is almost non-existent. Mr. Jackson scheduled an appointment and drove three (3) hours to assess my system and gave me a fair and reasonable estimate which included recommendations for better energy-efficiency in my home (i.e., additional attic fans, etc.).

Once I contracted with Mr. Jackson to install a new SMA Sunnyboy 7000 inverter and rewire an existing 16 kWh system, he was focused and driven. Mr. Jackson not only adhered to the terms of the contract we agreed on but he finished the project prior the deadline. As a result of Mr. Jackson's outstanding knowledge, skills and abilities, my solar system's production increased from 30 kWh to 90 kWh per day.

Based on my experiences with a myriad of solar installation professionals, Mr. Jackson proved to be an outstanding professional and excellent human being. Mr. Jackson will "do the right thing" with whomever he is does business with and will perform to the best of his abilities. I highly recommend him to anyone needing solar system installation or consultation.

Dr. Allen Delaney
